

### **ANCIENT ASTRONAUTS - OUR EXTRA TERRESTRIAL LEGACY [DVD]**

Dating back to 5th Millennia BC, the Sumerian civilisation emerged out of nowhere, with no predecessor on the land that is now Southern Iraq. This land has previously been known as Mesopotamia, Babylon and Akkadia, and was first inhabited by the Sumerians. It is the Sumerians who we need to give credit to for many of the first advancements of civilisation. From the wheel, to the written language (known as 'Cuneiform'), the Sumerians also divided the heavens into 12 parts, assigning each section of the sky to a unique symbol. They were the first civilisation to practice organised agriculture, the use of specialised labour force and much more.

It is clear that the Sumerian people obtained a vast body of knowledge, but how did they learn these things? In the early 1900s, British archaeologists began excavations in the ancient Sumerian city of UR. They discovered thousands of clay tablets, each of which detailed the time when the Sumerian people lived amongst their gods "Anunnaki". They left many wall carvings, which showed their interaction with these beings. These gods were portrayed as winged figures coming down from heaven.

Amazingly, these tablets detailed not only the aesthetic features of the planets, but also the distance between all the planets of the Solar System, including Pluto, which was not discovered until 1930. They also detail a planet called "Nibiru", the planet from which they came from, also known as the planet of gods. It is now clear that many biblical tales have an earlier version recorded in stone, which is still preserved to this day from the Sumerian legacy.

From the concept of angels, the original story of the flood, to the story of Adam and Eve, these clay tablets reveal an astounding amount of truths about the human race.

Learn of a time when there were 'Giants upon the Earth', and see the actual evidence and artefacts from a time when man lived amongst his living gods!
