# FINDING GOD: THE ENLIGHTENMENT [DVD]

How does one find God in a senseless world where we are overloaded with information and technology, distraught by the futility of politics and are constantly being controlled by the machines of progress?

In a world obsessed with power and control, many are finding the inner peace we all seek, by taking a step back instead of forward. Taking time to identify with nature and common sense, back into the Garden of Eden in a sense.

God has a far deeper and personal meaning beyond the increasingly complications of world religions and the rapid 'progress' that mankind claims to be experiencing.

The road to enlightenment had greater meaning and significance to our ancestors. This three-disc deluxe DVD set serves as a guide for those who are searching to connect with something greater than all of us, the indefinable presence of God.

From quantum theory, to lost secrets of the ages, unlock for yourself the true key to the laws of attraction and self-empowerment. Discover what the Gnostics, Freemasons, Shamans and other wisdom keepers have known for millennia.
