**REALITY UFO SERIES :VOLUME ONE [DVD]**

A unique series in conjunction with Hard Evidence and Ufologist Magazines, focusing on some of the most compelling, well documented cases in UFO and Paranormal History. Reality UFO Series Volume 1 features:

**Aliens And The Scalpel by Dr Roger Leir:**

Discover the truth about Alien Implants. Dr. Leir has acted as Chief of Podiatry in many Southern California Hospitals. He has headed two surgical teams that have removed several suspected alien implants from over 12 separate individuals. Dr Leir's work takes a serious look at the scientific and medical aspects of the alien abduction phenomena. It is a story of not only scientific research but explains how the author, who started as the consummate scientific skeptic, became thoroughly convinced that humans all over this planet are being tampered with by another intelligence.

**The Walton Story by Travis Walton:**

Author of the Paramount picture "Fire in the sky" gives us a unique insight into the Walton Story. On November 5th, 1975 a group of loggers in the mountains of north eastern Arizona observed a strange, unusually bright light in the sky. One of those men, Travis Walton, recklessly left the safety of their truck to take a closer look at the large UFO. Travis Walton relates in his own words the best documented account of alien-UFO abduction yet recorded. A fascinating Encounter.

**The Billy Meier Case with Michael Horn:**

Michael Horn has been researching the Billy Meier UFO Contacts for over 25 years and is now the authorized representative for the book on the Meier case, "And Yet They Fly". Michael's main focus since 1988 has been on Meier's prophetically accurate scientific and world eventrelated information, published from 1 to more than 25 years in advance of terrestrial discovery or occurrence. Because of the abundance and impeccable accuracy of Meier's material, and the failure of professional skeptics and debunkers to duplicate any of Meier's hard evidence, Michael has concluded that Meier's credibility is unequaled by any other source, past or present.

**Ancient Archeology with Kathleen Andersen:**

Kathleen is a freelance writer living in Seattle, Washington. She currently writes for "Beyond" Magazine and has appeared in a series of columns for Quest Magazine in England. In this program she gives a lecture on The Myth and Mystery of Planet X. When did it begin, what do we know now, what does the future hold? Topics include how the Sumerian culture suddenly sprang seemingly from nowhere in Mesopotamia, how we learned from them the tale of the flood, of Gods who lived in the sky with a far advanced knowledge of cosmology and the wisdom that they brought us through the cuneiform cylinders. Also covered are the origins of the Bible, what we now know with recent studies by universities and how the basics of a variety of religions tie into Biblical stories.
